Make A Hobby of Hardy Sempervivums

Sempervivums go well with most of the tender succulents and cactus.

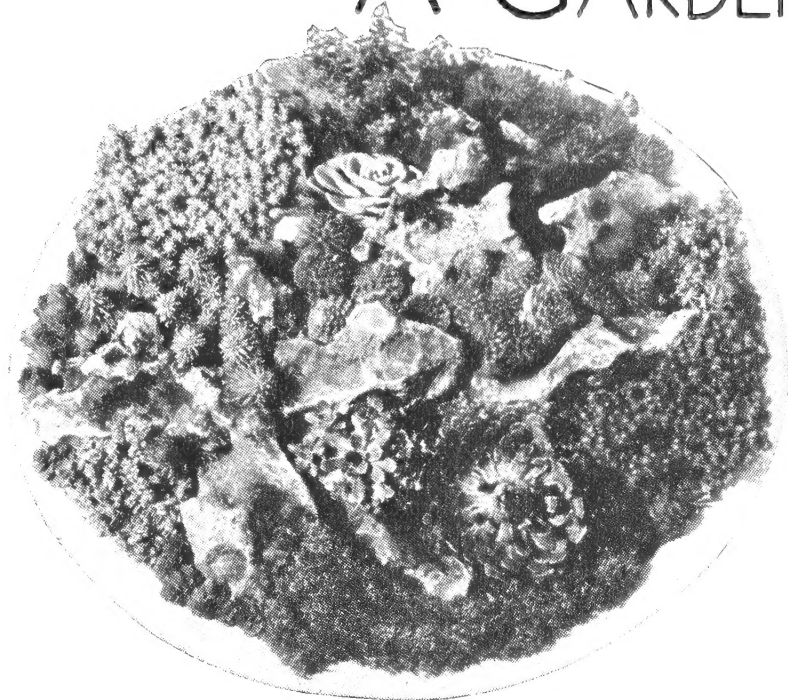

**Indoor Gardening with****Colorful**

If you have never had the pleasure of growing hardy succulents (Sempervivum) inside, we have a rare treat in store for you. No hobby is more fascinating for the garden enthusiast than collecting and growing Hen & Chicks. Just grow a few hybrids and species in your home or garden and you will find yourself immediately planning to grow more and wondering why you didn't see its possibilities sooner. Here are a few examples of formal and naturalistic design.

Most everyone has a bowl of low flat design, pottery fawns, fishes, shells and other fancy patterns that are suitable for this purpose.

SANFORD NURSERY CLYDE, OHIO

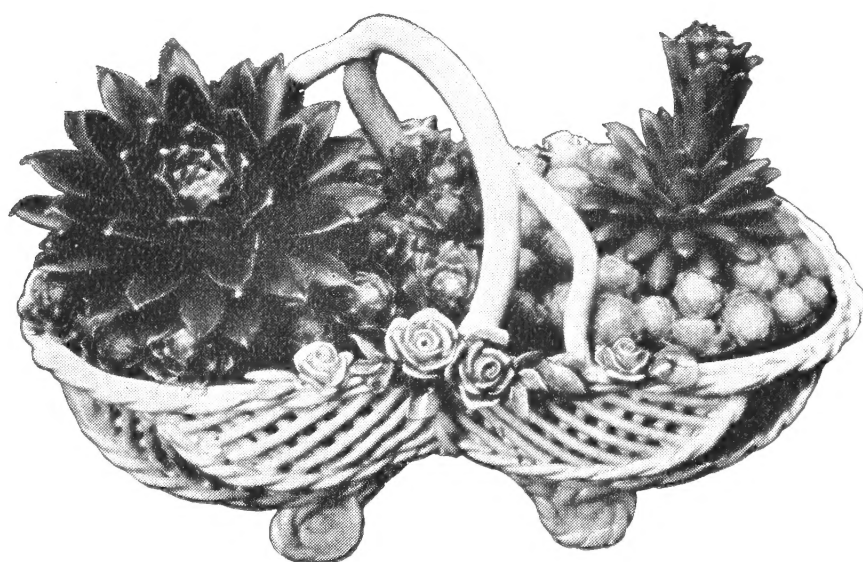

# A GARDEN IN ITSELF

Planted with Sedum & Sempervivum

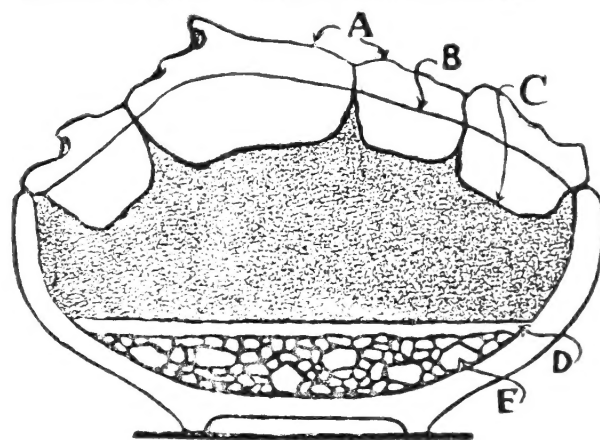

We offer for indoor gardening, 10 assorted varieties prepaid for \$1.00. This assortment contains, cobwebs, mossy sorts and larger species and hybrids -- all different all labeled - The ten will plant one 6" bowl or several small pots.

Only a select list of our large collection is available during the winter months, for this reason - we do not guarantee new sorts only during the growing season.

Specimen plants: This photograph was taken in late April showing advanced growth. Do not force them before late March, it will hurt the coloring. See our instructions for growing Semps indoors.

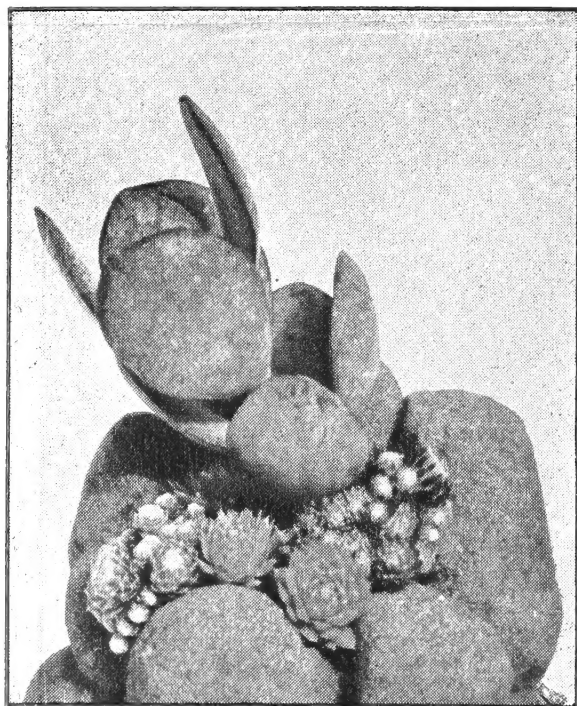

## PLANTING INSTRUCTIONS

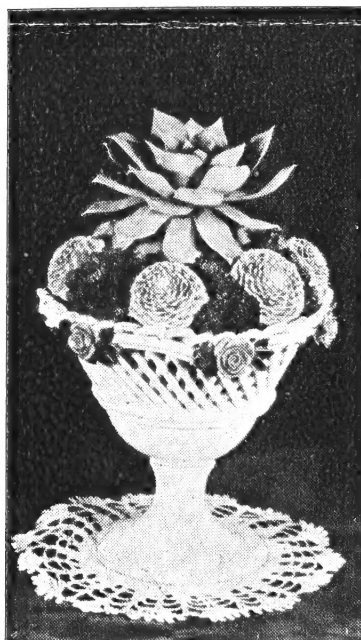

A - Stone, limestone or other porous rock may be used. B - Soil line or grade. C - Soil, equal parts sand, soil and leafmold. D - Is a layer of moss or cloth. E - Small rounded pebbles, or charcoal should be used in pots without drainage holes.

We can furnish extra large specimen plants at 4 for \$1.00 prepaid, our selection, labeled, all different. Get acquainted with these fascinating plants they grow admirable in most uncongenial surroundings in the heart of the city.
